

SPT-200 AIS MONITOR SOFTWARE (PC-BASED)

SPT-200 is designed for vessel monitoring purpose on PC. As a PC-based software, SPT-200 can be used in three ways:

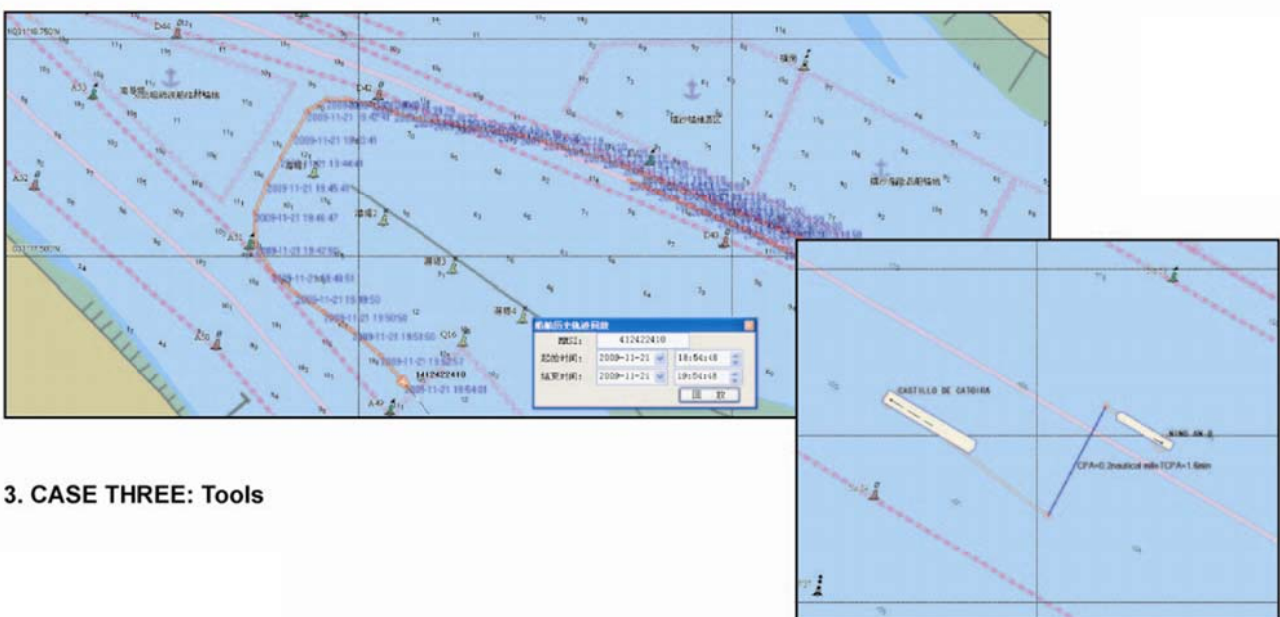

- Single user by connecting PC to a AIS receiver or AIS transponder.
- Multi-users in an intranet by connecting the server to a AIS.
- Remote user by visiting a remote AIS server via Internet.

In either of three ways, SPT-200 can be widely applied to different purposes:

1. CASE ONE: Realtime monitoring

2. CASE TWO: Play back of track

3. CASE THREE: Tools
