

“Arctic Bort Cab – 8.0”

We offer not a large boat, but with a maximum passenger capacity of 12 people. The main forms of planing contours are made in the form of Triklin, which makes it possible to instantly exit the vessel onto the glider, without significant motor loads. In a cabin of a boat installation of heating or the conditioner is possible. The boat is very maneuverable and, thanks to its impenetrable balloons, has increased stability on the water. The boat is completely made of HDPE, which gives a guarantee for long-term use without additional maintenance.
